

BVLGARI

For a long time we have been searching for a suitable location for our project in one of the most stunning capitals of the world – in Moscow. It was only thanks to our colleagues from Wainbridge that our attention was drawn to the very special and unsurpassed atmosphere of Bolshaya Nikitskaya street.

Wainbridge team told us very timely about this location, as if anticipating all our expectations in advance, meanwhile, the force of gravity did the rest. When one knows exactly his aim, and even meets a partner on the way who is not only able to understand the tasks, but also to anticipate them, and can inspire approach, everything works out by itself. We didn't need to be convinced any more. It was on Bolshaya Nikitskaya street near the Kremlin and the Moscow state Conservatory where we decided to open the doors of one of the diamonds in our collection – Bvlgari Hotel & Residences Moscow.

Grazie mille to colleagues and professionals from Wainbridge for a significant contribution to the development of the Bvlgari Hotels & Resorts Collection in Russia, where we intended to come for a long time and waited for the right time and for a partnership, as it is obvious now.
